### Blaming The CIA Gets Us Nowhere

I heard a Miami television newscaster say that apparently hurricane Flora has done more in five days than the CIA was able to do in the years of planning that led to the abortive Bay of Pigs invasion.

It was shown in a number of articles in U.S. News and World Report as well as other leading magazines, that the pre - planning by the CIA was excellent, that everything was set for easy removal of Castro and his Red henchmen.

If the freedom-loving people in Miami are still blaming the CIA for this fiasco, then we may never see the Communists out of Cuba.
